

## COMPUTER GRAPHICS 1: ePORTFOLIO ASSIGNMENT #3

Working with Brushes, Color Effects, and Special Effects

For this activity, you will work with a series of your own images to demonstrate a **BEFORE** and **AFTER** series of effects in Photoshop.

### REQUIREMENTS:

#### PART 1

1. Find five (5) unique images that you wish to transform; they can either be photos you have taken or found online, which are appropriate for class use.
2. Paste those images in a Word or PowerPoint file, and label those five (5) images as **BEFORE**.

Bring each image into Photoshop, and...

3. Check the Image Size dialog box to verify that each image is larger than 4" x 4" and has a resolution higher than 72 ppi.
4. Crop each image in a way that you think is aesthetically pleasing.
5. Demonstrate each of the following, using at least one (1) technique per image; each technique must be used at least once:
  - Adjustment layer
  - Color replacement
  - Black & white adjustment
  - Colorizing a black & white picture
6. Paste these images in your file as **AFTER**. Under each image, explain what you did to modify the image.

#### PART 2

1. Find five (5) unique images to which you wish to add stylized text; they can either be photos you have taken or found online...or your **AFTER** images from earlier.
2. Paste those images into the same Word or PowerPoint file, and label those five (5) images as **BEFORE**.

Bring each image into Photoshop, and...

3. Demonstrate each of the following type techniques using at least one (1) technique per image:
  - Multiply blending mode
  - Overlay blending mode
  - Lens Flare filter
  - Motion Blur filter
  - Image distortion

*\*Note: You may apply more than one type technique per image, if you wish.*

4. Paste these images in your file as **AFTER**. Under each image, explain which type technique(s) you used.
5. PRINT, and TURN IN.
