

## COMPUTER GRAPHICS 1: ePORTFOLIO ASSIGNMENT #4

### Tutorial Exploration

For this activity, you will work with a series of your own images to demonstrate a **BEFORE** and **AFTER** series of effects OF YOUR CHOICE in Photoshop.

#### REQUIREMENTS:

##### PART 1

1. Find five (5) unique high-quality images that you wish to transform; they can either be photos you have taken or found online, which are appropriate for class use.
2. Paste those images in a Word or PowerPoint file, and label those five (5) images as **BEFORE**.

Bring each image into Photoshop, and...

3. Crop each image in a way that you think is aesthetically pleasing.
  - Find online tutorials for five (5) new effects that we have not discussed during class.
  - Watch each tutorial, and apply the new effect to your image; repeat this process five times.
4. Paste these modified images in your file as **AFTER**. Under each image, explain what you did to modify the image, and include the link to the online tutorial.
